

California OES Weather Threat Briefing

Wednesday, November 10, 2021
9:00 AM PST

Day 1 (Wednesday): Gusty Santa Ana winds will develop across the southern California mountains today.

National Weather Service

*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

11/10/21 - 11/16/21

Wednesday - Tuesday

- Periods of rain and high elevation snow will continue Wednesday across far northern California, otherwise milder and drier weather are expected into early next week
- Periods of dense fog are possible across much of the Central Valley mid and late week
- Locally gust offshore Santa Ana winds are forecast across southern California Wednesday through Friday, with gusts of 30-50 mph
 - Strongest wind gusts are expected on Thursday
 - These winds will bring widespread elevated to brief critical fire weather conditions
 - Elevated fire weather conditions persist through early next week across the southern California mountains with continued dry conditions and locally gusty winds.
